PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Kamen-Rybolov Army Barracks NE is located on the northeast edge of Kamen-Rybolov on the shore of Lake Khanka (Figure 1).

The installation covers approximately 1,900 acres and contains 3 administration buildings, 18 barracks, 41 general storage buildings, 54 support buildings, 8 storage/support buildings, 2 probable explosive storage buildings, 8 probable vehicle storage buildings, 2 probable vehicle maintenance buildings, 3 driver-training control and support buildings, 4 buildings associated with special training, an unidentified multiwing building, a tracked-vehicle driver-training

course, and extensive random trackage (Figures 2 and 3).

The installation was covered by [REDACTED] KEY-HOLE missions of interpretable quality between [REDACTED] and no major changes were observed.

Winter coverage indicates moderate activity throughout the installation, but no activity on the driver-training course.

The presence of 24 aircraft on hardstands indicates the possibility of a DOSAAF or military mechanics school. The aircraft were present on all coverage.

DESCRIPTION OF INSTALLATION

Railroad Service

There are off-loading facilities within Kamen-Rybolov that probably serve the installation.

Road Service

The installation is served by town roads.

Aircraft Landing Strip

A sod airstrip is located approximately 2 km west of the barracks area.

Administration and Troop Housing Area

Area D contains 2 administration buildings, 9 large barracks, 9 small barracks, 20 general storage buildings, 41 support buildings, and an unidentified multiwing building.

General Storage Areas

Area E1 contains 11 general storage buildings, 8 support buildings, and 4 probable storage buildings located in a secured area.

Area E2 is a secured area with 2 storage buildings.

Area E3 is a secured area with a storage building and a support building.

Area E4 is a secured area with 3 storage buildings and 2 support buildings.

Ammunition Storage Area

Area F contains 2 probable explosive storage buildings and 2 support buildings.

Equipment Storage/Maintenance Area

Area J contains eight 225- by 50- foot probable vehicle storage buildings, two 100- by 35- foot probable vehicle maintenance buildings, 8 storage/support buildings, and a probable administration building.

Athletic Field

Area K is an exercise track and probable playing field.

Driver-Training Area

Area M is a tracked-vehicle driver-training area. An extensive closed circuit course and heavy random trackage are located adjacent to the installation.

Infantry or Combined Arms Field Training Area or Courses

The area between Kamen-Rybolov Army Barracks NE and Kamen-Rybolov Army Barracks Troitskoye is probably used as an infantry or combined arms training area by both installations.

Special Training Facilities

Seven CAB, 2 medium unidentified straight-wing, 13 possible BEAGLE, and 2 unidentified possible aircraft are on hardstands on the western edge of the installation. There are no taxiways to the airfield. There are 4 buildings associated with the area.
